NET ZERO FIREPLACES

PANORAMA SINGLE-SIDED
WITH AUTOMATIC ETHANOL BURNER

Net Zero fireplace with BEV Technology®

min. 220 cm (min. 86.6'')

min. 50 cm (min. 19.6'')

floor level

TRUE ZERO CLEARANCE

The feature that allows you install the fireplace in a housing construction made of combustible materials and even hang a TV above the fireplace.

HEAT DISTRIBUTION

Panorama fireplace comes with a complete set of components for an efficient distribution of heat.

GLASS-ENCLOSED

Panorama fireplace is closed behind durable tempered glass panels.

NEW AUTOMATIC BURNER

The new burner with the patented BEV Technology® gives a much deeper and richer flame. The top surface of the fireplace has to be covered with the included glass foam pebbles to increase its aethetic value. As an option the burner can be decorated with ceramic logs or white stones.

EXTERNAL CONTROL PANEL

The fireplace has an intuitive control panel with an inlet for automatic refuelling. The panel has a 2.5m-long wire and can be placed on a wall next to the fireplace above the burner surface.

REMOTE CONTROL OPTIONS

Control the fire with the included remote, app on your smartphone or a home automation system (Smart Home System).
