

LAURENT FIREPLACE

WITH PRIME FIRE 990+ AUTOMATIC ETHANOL BURNER

Net Zero fireplace with BEV Technology®

AUTOMATIC BURNER

The automatic burner with the patented BEV Technology® is the most advanced product in the industry ensuring the cleanest burning process without any smoke, smell or ash. The flame is produced by combusting ethanol vapours and has no direct contact with the liquid fuel.

AUTOMATIC REFILLING SYSTEM

The automatic pump communicates with the device, delivering the necessary amount of fuel. There is no risk of overfilling the tank or spilling the fuel.

SINTERED CERAMIC BOX

The box is made of a highly-renowned Dekton surface by Cosentino – a 12mm thick ultra-compact material made from sintered ceramics, quartz and glass. Utilizing only natural materials, the surface is entirely carbon-neutral and eco-friendly. Its high-performance offers scratch and stain resistance and is known to withstand high temperatures. It has an elegant matte look of Laurent marble, making it an eye-catching decoration in any interior space.

REMOTE CONTROL

Take full control over the fireplace with the intuitive and minimalistic remote in your hand.

FLAME CONTROL

Have control over the fire and take advantage of the 6-stage flame height

SAFETY SENSORS

- Heat/temperature sensor
- Fuel spillage sensor
- Fuel level sensor

Laurent Fireplace

with Prime Fire 990+ Burner

Fuel tank capacity	5.5 L
Maximum burn time	10 hours
Maximum heat output	7.0 kW
Minimum room cubature	70 m ³
Flame height regulation	2 stages
Weight	81.5 kg
Fuel type	bioethanol 95 - 96,6%
Flue	not required
Air change rate	1 space volume per hour
Power supply	230 V
Finish	black powder coating
Materials	sintered ceramics, steel, galvanized steel, toughened glass
Application	for indoor use only

CONTROL OPTIONS

included

OPTIONAL DECORATIVE TRAY

Decorative tray with 2 ceramic logs or white stones installed on the burner, behind the fireline.

O-TL certified 
Manufactured to UL standards
